## SPECIAL EQUIPMENT/FEATURES

Fitted for trading Australia.  
Fitted for carriage of dangerous goods of all IMO classes.

Speed and consumption figures are calculated basis maximum Beaufort 2, no swell and no adverse currents. Consumption data assumes shaft generator and reefer plugs disconnected. Vessel is burning fuels according to ISO 8217-2012. Intake is always subject to vessel's stability, trim, permissible weights and is subject to regulations of visibility. Lifting capacity of vessel's cranes is subject to vessel's stability and can depend on cargo/ballast on board. Container data as well as bale capacity assumes tweendeck ashore. All details including speed and consumption are given in good faith and are „about“ and are given without guarantee. They must not be used as basis for charterparties or contracts without BBC's explicit written authority.
